

KDE Releases Updated School Report Card

September 29, 2021

The Kentucky Department of Education released the latest School Report Card updated on Wednesday, September 29, 2021. The School Report Card contains enrollment, demographic, and assessment data for the previous school year. KDE is strongly recommending that data this year is almost entirely incomparable to previous years due to the unusual and difficult circumstances of the 2020-2021 school year.

“We are very proud of the efforts of our faculty, staff, students, families, and community throughout the COVID-19 pandemic,” stated Superintendent Phillip Watts. “These data will give us an opportunity to examine how our students learned during virtual and hybrid learning and will provide valuable information as we plan and move forward in our goal to have every student in our district become Graduates Prepared for College, Career, and Community.”

Breathitt County Schools encourage all stakeholders to visit our District Report Card at: <https://www.kyschoolreportcard.com/organization/5521>. KRS 158.6453 requires the sharing of the School Report Card annually with families and communities so stakeholders can have a clear idea of how well their school is performing. If you have any questions regarding the district report card, please contact the district office.
